  • Final review will be presented to Board for adoption
  • Meetings will continue with individual and/or club cohorts (and will continue on an annual basis)
Sport Membership Model Proposal
Sport Membership Background

- Report participation rates and percentage of students engaged in activities
- Fitness Centre membership data and casual venue hire users are currently captured
- Most Club member data is not captured
- The data will also help demonstrate the importance of overall club participation
- To help seek additional University resources
• MU Sport proposes that all participants in sporting clubs are members of the University of Melbourne (UoM)

• Differentiate between UoM Students and others

• An annual payment of a fee for non-UoM Students

• This fee would be returned directly to the relevant Club

• Club Benefits:
  – Collection of member data
  – University Insurance
  – Volunteers and coaches would not be required to pay the Membership fee
  – Access to the Member rates for casual Venue Hire
• January 2016
• Data and fee collection:
  – existing online system operated by the club
  – University eCommerce system
• Data sharing
• Discussion Paper to be sent out shortly for feedback
